Excerpt: . the consideration of brevity; the legibility of the outline, its dissimilarity to the outlines of all other words, and its general resemblance to the outlines of the words with similar derivation, must also be taken into account. Very frequently the best reporters deliberately choose longer outlines, to avoid illegible or difficult outlines. DERIVATIVE OUTLINES. J89.--There is great difference of opinion as to the best way to write words having a common derivation; some writers insist upon having a family resemblance among all the outlines of the words belonging to the same group, while others write each word in the language with the most convenient outline for that word, without reference to the outlines of the other words having the same derivation. Doubtless, the best course lies between these two extremes. COMMON INITIAL AND FINAL SYLLABLES. J90.--It will be of great assistance to the student to notice the most commonly occurring syllables found in the words of every day use, especially initial and final syllables, and as far as possible in his writing indicate the same syllable with the same sign. The list given below will repay careful study. J9f.--Special attention is first called to the following final syllables: LY. --When final ly is immediately preceded by a consonant written with a stem sign, the / is indicated by the I hook on that stem. When ly is immediately preceded by a vowel, the stem L should be used; when L cannot be joined,...
