Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Education and Government: An Address Before the Kansas State Teacher s Association, at Atchison, Kansas, June 26, 1878 Mr. President, and Members of the Kansas State Teachers Association: I do not come before you, assuming to be a teacher of teachers, an instructor of instructors. It is not my purpose to criticise, condemn or commend the means adopted and practiced by you. It is enough for me to know, in this connection, that you understand the powers of man to be indefinitely perfectable by training, and that, acting upon this knowledge, your profession is steadily rising in the scale of values, drawing to its ranks the best minds of our country - men and women, intent upon a mastery of the best means to the accomplishment of a great and good end. It is my purpose to consume the valuable time you have so generously granted me, in discussing education in a broader than a technical sense, and in a higher and quite different relation than that which it holds to the individual. It is of education as a controlling force in the formation and maintenance of human governments that I desire to speak. I use the term controlling force, in this connection, assuming and believing it a truth that education is the paramount power, dictating forms of government, and fixing their metes and bounds - the theory that governments control and shape education to their wishes and needs, being erroneous.
