Statistics Without Tears: Quantitative Analysis and Forecasting in Hospitality Tourism (Paperback)

By Stanley I Buchin

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Through his years of teaching hospitality and tourism management and working with many of the country s leading consumer product and service firms, Professor Stanley I. Buchin understands the importance of using the right methods to discern meaningful information out of numbers. In Statistics Without Tears: Quantitative Analysis and Forecasting in Hospitality and Tourism, he presents a different approach to statistical analysis that avoids the headaches of math-intensive techniques in favor of graphics and computer programs, while still maintaining a rigorous approach to the analysis. The textbook launches into descriptive statistics by asking the question, are we measuring the right things? He examines what data is currently available to hospitality managers about their operations and what this data means (STAR reports). But one can begin to steer away from all that by displaying measurements with visual graphics such as pie charts and bar graphs, which are easier for most people to comprehend than mind-numbing lists of numbers. And there is a better way of summarizing measurements, too: Why not take advantage of computer software like Excel to make...
